Empowering Minds, Shaping Futures

Dear CIDER family,

I hope this message finds you all in good health and high spirits. It is with immense pleasure and a sense of profound accomplishment that I write to you today. Recently, I had the incredible opportunity to represent our school at a prestigious global conference, and I am excited to share my experiences with you all.

The conference, held in the vibrant city of Bangkok, Thailand, gathers ministers, policymakers, educators, administrators, and thought leaders worldwide to explore innovative approaches to promoting multilingual education. As I stood on that international stage, representing our school, I couldn't help but feel a sense of pride. Our institution has always been committed to providing a holistic education beyond textbooks and classrooms. We emphasize values, critical thinking, and global awareness. This conference was a testament to the fact that our approach to education aligns with the best practices being discussed and implemented globally. Throughout the conference, I attended numerous sessions, seminars, and panel discussions featuring some of the brightest minds in multilingual education. These sessions covered many topics, from integrating technology into classrooms to fostering empathy and sustainability in our students. I was inspired by the dedication and passion of educators worldwide, working tirelessly to create a better future through education. One of the conference's highlights was the opportunity to share some best practices for assessing multilingual learners. I had the honour of presenting some best assessment practices initiatives that have yielded outstanding results, especially in Southeast Asia. The positive feedback and interest generated from the audience were genuinely heartwarming. Additionally, I had the chance to engage in meaningful conversations with educators and representatives from different countries and backgrounds. We exchanged ideas, shared challenges, and brainstormed solutions, all to improve the quality of education for our students. It was a reminder that education knows no boundaries and that we can learn so much from one another's experiences. Reflecting on this incredible experience, I am reminded how fortunate we are to be part of a school community that values continuous improvement and global perspectives. I am excited to bring back the knowledge and insights from this conference to enhance our educational practices further.

I want to extend my deepest gratitude to our school community for entrusting me with this opportunity to represent us globally. I hope the lessons learned at this conference will contribute to our ongoing efforts to provide the best possible education for our students. As a united and passionate community, we will continue empowering young minds and shaping bright futures.

Best Wishes,  
Neeti Tripathi

Travelling offers a great deal of benefits for students. Firstly, it broadens their horizons by exposing them to diverse cultures, languages, and perspectives. This cultural immersion fosters tolerance and a deeper understanding of global issues.

Moreover, travel encourages independence and self-reliance as students navigate unfamiliar environments, solve problems and make decisions on their own. It also enhances their adaptability and resilience as they learn to adjust to new surroundings and unforeseen challenges.

Additionally, experiencing different educational systems and environments can provide unique learning opportunities. It allows students to gain fresh insights, innovative approaches and perhaps even discover a passion they had not considered before.

Travel often sparks creativity and inspiration. Experiencing new landscapes, art, and architecture can ignite fresh perspectives and ideas which can be invaluable in their academic pursuits.

In summary, travelling not only enriches a student's personal growth but also complements their academic journey in numerous ways. It's an education beyond textbooks, fostering a well-rounded, globally aware individual.

### Coffee Morning (CC)

Coffee Morning is an effective way to network with the parents in a relaxed atmosphere. These sessions commemorate the informal chit-chat with the school leaders and the parents rather

Teachers need opportunities to develop their craft, just as students need opportunities to learn and grow. The intention of a PD session is to provide ongoing learning for teachers.

These sessions give teachers the confidence to go back into their classrooms and apply their new knowledge. Knowing what has not been working and what to do differently will empower teacher leaders to revamp their current professional development practices. Vice Principal Ms. Neeti Tripathi conducted a session for Junior school on 16 September 2023 in the LMR Hall.

The presenter did an excellent job of explaining the topic and providing real-world examples. The key takeaways from the session were how to come out from self-limitation and how to imply gamification, very current issue, in our regular classes. Moving forward, we plan to implement these strategies in our daily work to improve our productivity and efficiency.

### The Clever Cobra

Once there lived two crows in a banyan tree. They were a happy family. Beside the tree there was a very wicked cobra. One day, the mother crow was happy as she had laid some eggs. But when they went for searching food, the cobra ate them all the eggs. The father crow and the mother were very sad when they found out about it after their returning home. But alas! They had nothing to do. Later on the mother crow had laid some more eggs. This time the father crow was keeping an eye on them. On the following day, the father crow saw that the cobra was the culprit. So he thought to give him a good lesson. He stole the precious diamond jewellery of the queen and threw it to the cave of cobra. Later on the soldiers came looking for it and found it over there. As a punishment they killed the cobra. From that day, the crows lived a happy life with the baby crows.

I hugged my grandfather tightly. It was the best surprise. But it was also my time to go to school. So, my grandfather dropped me to my school. After coming back from the school and taking shower, we talked so much. I told him about my friends and school also. Next day, we went to sea beach. And we did lots of fun there. After three days, my grandfather left for Rajshahi again. I was so sad but I wish to meet him again very soon!

### My Uncle's Bird

My uncle's bird is a cockatiel  
My uncle's bird is a girl,  
Sometimes she flies out of her little bird house,  
And it scares me and my cousin's mouse  
Because we think she is mad or scared of us.  
When we go to stay there for a few days,  
My uncle lets us pet her,  
But when we leave and then come back,  
She completely forgets us,  
And when we try to pet her,  
She bites us.  
But when we see her trying to bite us,  
We quickly move our hands so she can't bite us.

### The Best Birthday Ever

This year's birthday was the best birthday in my life, because I had two birthday celebrations, and these were the best birthday celebrations of my life.  
The first celebration was not just a celebration, it was a surprise. The day was 5th of June and as usual I went to sleep at 12 a.m. My dad woke me up and wished me happy birthday. I fell asleep but woke up with a shock to find my mom and dad standing there with a red velvet cake, and my gifts too, which I was not ready for.  
My second celebration was in school with all my friends and teachers on the day of our class party. It was a delightful memory for me.

### বুষ্টির দিন

আহিয়ান ইয়ামির্শ জাহির - দ্বিতীয় ক ( সিসি)

গ্রীষ্মের শেষে দাবদাহে প্রকৃতি যখন উত্তপ্ত, তখনই প্রকৃতিকে শীতল করার জন্য আসে বর্ষা। কালো মেঘে আকাশ ঢেকে যায়। বর্ষাকালে বুষ্টি হয় আমরা সবাই জানি। কিন্তু এমন একটি বর্ষার দিন আসে যা সহজে ভোলা যায় না।

সেদিন সকালে আকাশ কালো মেঘে ঢাকা ছিল। ব্যক্তের ডাকে চারদিক মুখর হয়ে ছিল। ঘুম থেকে উঠে মনে হল সকাল হয়ে নি। কিন্তু ঘড়ি দেখে বুঝলাম সকাল অনেক আগেই হয়েছে। মুখ হাত ধুয়ে পড়তে বসলাম। তখনই কমবহম বুষ্টি শুরু হল। সঙ্গে চললো মেঘের গর্জন। অনেকক্ষণ পর যখন বুষ্টি থামল তখন বাইরে এসে দেখি রাস্তার অনেক পানি জমে গেছে। বাবা মা খুলে যেতে বারণ করল। আমি তখন কাগজের নৌকা বানিয়ে বুষ্টির পানিতে ভাসিয়ে দিলাম। সে কী আনন্দ! বাসায় এসে টেলিভিশনে ববর সনে জানতে পারলাম রাস্তার পানি জমে পাড়ি চলাচল বন্ধ হয়ে গেছে। গাছপালা পড়ে মানুষের ঘরবাড়ি ভেঙে গেছে। অনেক ক্ষতি হয়েছিল মানুষের।

সেদিনের কথা আমি কখনও ভুলবো না। তখন থেকে আমি বুঝতে পারলাম যে, প্রকৃতির কাছে মানুষ কতটা অসহায়।

### আমরা কীভাবে বাংলায় দক্ষতা অর্জন করতে পারি?

হাসনাইন কাওসার - ৪র্থ শ্রেণি (এনসি)

বাংলা আমাদের মাতৃভাষা। সকলক্ষেত্রে আমরা এ ভাষা ব্যবহার করি। শিক্ষারানের পদ্ধতি হিসেবে আমাদের শুদ্ধ উচ্চারণে কথা বলা, সুন্দর ও পরিচ্ছন্ন উপায়ে লেখার গুরুত্ব দিতে হবে। আমাদের দেশে শিক্ষাক্ষেত্রে বাংলা বিষয় ছাড়া অন্যান্য বিষয় শেখার মাধ্যম ও বাংলা। ভাষা দক্ষতার চারটি বিষয় হলো- শোনা, বলা, পড়া ও লেখা। এ চারটি বিষয় ভালোভাবে আয়ত্ব করতে পারলে বাংলায় দক্ষতা অর্জন সম্ভব। আমাদের শিক্ষাব্যবস্থায় বাংলা ভাষা হিসেবে ইংরেজি শেখার ওপর গুরুত্ব দেওয়া হয়।

## Self -Help

Self-help is an admirable quality. It means not asking for anybody's help while doing work. There is a well-known proverb that "God helps those who help themselves." Those who need the help of others in doing their work lose their self-confidence. So, it is right to say that self-help increases self-confidence. Thus, self-help is nothing but the habit of confidently standing on one's own legs. We all should develop this habit of self-help. We lose our independence by calling others to help us. Others will not help us always. They may help us once or twice. Childhood is the right stage to learn the habit of self-help. Children should be encouraged to do their own work. They should learn how to live independently. In school and colleges, self-help should be practiced by the students. The teachers must see that the students are doing all the work by themselves. The students must solve their own problems without taking the help of others. In the playground also, the players must try to exert their individual skill and contribute the same skill to the team work. Self-help strengthens our character. It gives us enormous courage to face any kind of emergency in life. Most of us do not know their own worth. If they once try to stand by themselves, they can easily realise their worth. They will never again ask for others' help. Above all, there is joy in enjoying the fruit of one's own labour. Self-help is the key to succeed in life.
