Head's Heading

Dear CIDER family,

As we embark on our journey in life, we face many situations requiring us to choose. Decision-making skills are essential not only for our academic success but also for our personal and professional lives. They help us to think critically, creatively, and logically and to weigh the pros and cons of different alternatives. They also help us cope with uncertainty and ambiguity, change, and learn from our mistakes and experiences. According to various sources, some of the benefits of having good decision-making skills are:

- Saving time and money by avoiding unnecessary costs and delays
- Boosting productivity and efficiency by focusing on the most relevant and impactful tasks
- Making better use of resources by allocating them optimally and effectively
- Identifying the right opportunities by recognising the potential and feasibility of different ideas
- Establishing achievable goals by setting realistic and measurable objectives
- Coming up with new products and services by generating innovative and original solutions
- Hiring the best people by evaluating their skills, qualifications, and fit
- Developing better marketing strategies by understanding the needs, preferences, and behaviours of customers
- Preventing conflicts by resolving issues and disputes in a constructive and respectful manner

As we can see, decision-making skills are essential for success and happiness. Therefore, I encourage you to practice and improve your decision-making skills by utilising our school's various opportunities and resources. Remember, decision-making is a skill that can be learned and developed with practice and experience. The more you practice, the more confident and competent you will become. I hope you will use your decision-making skills to make the best choices for yourself and your future.

Best Wishes,
Neeti Tripathi

Victory Day is the glorious moment to pay homage to our freedom fighters for giving us the chance to breathe in a free atmosphere and to celebrate the triumph of good over evil. Commemorated annually on 16 December, this significant day marks the historic moment when our mother land emerged victorious against Pakistan.

In the face of adversity, our nation rallied together, demonstrating resilience, courage, and unwavering commitment to freedom. The echoes of the past resonate in the collective memory, serving as a testament to the sacrifices made by countless individuals who fought valiantly for a brighter future.

The spirit of Victory Day extends beyond mere commemoration; it is a celebration of unity and shared values. As we reflect on the struggles of the past, we are reminded that the strength of a nation lies not only in its military might but also in the bonds forged among its people. Victory Day serves as a symbol of national solidarity, fostering a sense of pride and patriotism that transcends generations.

Moreover, Victory Day prompts us to contemplate the importance of peace and the consequences of conflict. It encourages diplomatic solutions, mutual understanding, and a commitment to building a world where future generations can thrive without the shadow of war looming over them.

In today's world, our Victory Day serves as a beacon of hope, inspiring us to confront contemporary challenges with the same resilience exhibited by our forebearers. It is a call to action, urging us to work towards a future where justice prevails, human rights are upheld, and peace reigns supreme.

As we observe Victory Day, let us not only pay homage to the heroes of the past but also strive to create a legacy that ensures a world free from the chains of oppression and conflict. Our Victory Day strengthens our commitment to establish principles of liberty, justice, and the enduring spirit of patriotism.

DEAR Day (CC)

"Books and doors are the same thing. You open them, and you go through into another world."
-Jeanette Winterson

In order to inculcate the habit of reading books into the lives of our young readers, CIDER International School (CC Primary) religiously observes events like the DEAR Day. It took place on 01.11.23 wherein DEAR stood for Drop Everything And Read.

It was an event wherein students were asked to read a book at home on the day before DEAR Day took place. They came prepared and solved a worksheet based on the book that they had read. The best works were selected and were awarded with motivational cards.

The winners of DEAR Day were- Zoariya Noor Waseka from Grade 1A; Ayra Siddique from Grade 1B; Dibyadyuti Dey and Souhardya Saha from Grade 2A; Farsad Mohammad and Hrudaya Dey Ruhi from Grade 2B; Zahin Zara Pran and Adrita Das from Grade 3A; Hafsa Haque and Ahab Mirwaz from Grade 3B; Azaan Abdullah, Prajusha Barua and Tashreef Tajwar from Grade 4A; Maeema Hoque and Aronnyo Sarkar from Grade 4B; Shafana Sehrish Alam and Hridhdi Ghosh from Grade 5A; Anusha Mojumder and Muntafina Musarrat Ethina from Grade 5B.

Readers Club (CC)

Readers Club, a Pre-primary event, was held in the school library on 7 November 2023. In the Playgroup, fourteen parents were present out of twenty-three. The parents were busy reading stories. Children enjoyed spending time with their parents. Seven parents were present in Nursery-A and nine were in Nursery-B. Kids enjoyed reading with their parents. Eleven parents were present in KG-A and thirteen were present in KG-B during Readers Club. It was really nice, and the parents were engaged. They had great fun while reading stories for their kids.

Pre Exam & Assessment PTM (CC)

Cambridge Primary Pre Exam and Assessment PTM was held on 13 November 2023 in the respective classrooms. This type of meetings serves as a platform for collaboration and communication. The meeting was designed to strengthen the partnership between educators and parents, foster a supportive learning environment, and enhance student success. Teachers shared their concerns about the learners. There was good attendance of the parents. The parents raised some issues which were solved.

By fostering open communication, providing valuable information, and addressing concerns, the school aims to create a supportive and conducive environment for students to excel in their academic endeavors. For these reasons, parents attend this event with great enthusiasm.

Session on Mental Health (CC)

CC Primary organized a session on Mental Health for the students of Grade 5 on 6th November 2023. It was a part of their Global Perspective subject, prioritizing the mental well-being of its students, faculty, and parents. The event featured Miss Manzuma Murshed, Managing Partner of Mentors' Chattogram, as the special guest speaker. Miss Manzuma Murshed delivered a compelling session on the significance of Mental Health. Her expertise and engaging presentation style resonated well with the audience, providing valuable insights into fostering a mentally healthy environment. The programme included interactive sessions and workshops focused on practical strategies for stress management and emotional well-being. This session was designed to empower students with tools to navigate the complexities of modern life. The students enjoyed the session a lot. : The entire programme was marked by its interactive nature, with active participation from students. The engaging discussions and activities facilitated a dynamic exchange of ideas and experiences, creating a positive and inclusive atmosphere. Mr. Alexious Serrao, the Academic Coordinator of Cambridge Primary Section expressed gratitude to Miss Manzuma Murshed for her invaluable contribution to the programme. During the closing ceremony, he presented her with a thank-you card, expressing appreciation for her insightful and impactful session.

STUDENT LED CONFERENCE (NC)

On November 9, 2023, the National Curriculum Primary Section hosted an awesome Student Led Conference. The students took charge, guiding their parents through various activities, providing a glimpse into their classroom experience. The Student Led Conference (SLC) is a unique and empowering event that enables students to take the lead in showcasing their learning progress to their parents. It offers parents a firsthand view of their children's classroom endeavors. During the SLC, students step into the role of teachers, leading their parents through different activities, showcasing their accomplishments, explaining their learning journey, and demonstrating their skills and knowledge across various subjects.

Pre-primary students were divided into slots and provided with checklists. The program commenced with a warm welcome to the parents, followed by students showcasing their portfolios. Additionally, activities such as drawing, quizzes, puzzle games, and more were organized. Students also took their parents to art, games, music, and dance classes to display their inner talents.

A highlight of the SLC is the presentation of student portfolios, containing samples of their work, including assignments, projects, and assessments. It's a comprehensive collection that illustrates their growth over time. Apart from the portfolio presentations, students also led their parents through interactive activities designed to give them a hands-on understanding of their children's learning experiences. The aim is to engage parents in the learning process and enhance their grasp of the curriculum.

The SLC not only provides an avenue for students to showcase their achievements but also helps them develop essential skills like communication, organization, and leadership. Taking charge and guiding their parents through the conference helps students gain confidence and a sense of ownership over their education. Parents, in turn, gain deeper insights into their child's strengths, challenges, and progress. They can ask questions, offer feedback, and celebrate their child's accomplishments, fostering a collaborative relationship among parents, teachers, and students.

In addition to the SLC, a Pre-PTM (Parent-teacher meeting) was held where parents had the opportunity to discuss their child's academic performance, social development, and overall growth. Teachers shared insights, observations, and feedback to provide parents with a comprehensive understanding of their child's progress.

Overall, the Student Led Conference is an empowering and enriching event, offering a unique opportunity for parents to explore their child's classroom, engage in hands-on activities, and strengthen their bond with their child's education. It not only celebrates students' achievements but also cultivates a sense of community and collaboration within the school.

Movie Day (CC)

Movies are one of the most well-known forms of entertainment. However, it is surprising to many that there are also benefits of movies for children. Children's movies always carry a lesson. Seeing so many different situations on the screen, children develop their ability to think, stimulate their imagination, and become more creative, among other effects that demonstrate the benefits of movies for children.

On 3rd December 2023 Sunday Cambridge Pre- Primary had organized Movie Day for the students where they enjoyed the movie named "Baby's Day Out". Students thoroughly enjoyed the movie. They laughed, giggled and had so much fun. They also enjoyed the chips and popcorns that they brought from home while watching it. The Movie Day session had ended with a pleasant note.

Storytelling Session (CC)

On 3rd December, Sunday a story telling session for CC pre-primary students was held in LMR hall at 9:30 a.m. At first parent of Syed Izaan Azam (Sidra Nabi Neha) graced the occasion by reciting her beautiful Bangla story (স্মার্টফোন নাকি স্মার্ট বাচ্চা) written by Muhammad Zafar Iqbal. The story was very engaging, and the students were very cooperative when she asked them questions regarding the related topic. After that Nusrat Jahan Ritu, parent of Nusayba Roshni Hasan told a beautiful English story named "The Little Red Hen". She also engaged the students by asking various topic related questions. They both used different types of props to make the segment more exciting. At the end, the parents were honoured by cards and certificates for their wonderful performances.

Field Trip to Chittagong University

Last Sunday we had a trip to Chittagong University. We, all the students, with the teachers and staffs went together. The journey was long and there was also a delay. I sat with my best friend, Ethina. Just when the bus started moving everyone started singing "The Wheels on the Bus". Most of us played GUESS THE COUNTRY, rock-paper-scissors. When we were near the university, we saw a lot of students going there. We waved at them. In front of the university there was a gate labelled "CHITTAGONG UNIVERSITY". It was very big and had a lot of students. When we finally arrived, we made a single line and went to the museum. The museum had four sections like: Islamic Gallery, Sculptures and statues, Liberation artifacts and lastly Map and tourist places. After that we again went to the bus to have our tiffin. We all shared our tiffin with each other. From the window we saw teachers having snacks and drinks. We then went to the library. The librarian said that every student has a card. They should show this card to them. Then the librarian will give them a form, in this form the student should write the name of the book they want. After their submission the staff brings the book as quick as they can. Next we went to the lab. They explained to us about cyber.

My Feeling after Getting Red Belt

I am Mahifa Noore Jannat. I am a student of Khulshi Karate Club. When I was new in Khulshi Karate Club, I was in White Belt. We learned how to punch, kick, block and many more. After learning those, we learned how to do 'kata'. We had Belt Exam and got Half Yellow Belt. I was happy and so was my sister. Then we learned some other types of things like kick and high punch. Then we got a full Yellow Belt. We got one more belt and it was an Orange Belt. Later, we had another exam and then we got a half Red Belt. I am very happy. I took pictures with my teacher. My dream is to get a Black Belt.

Mahifa Noore Jannat

Grade 2A CC

Jokes

1. How did mobile propose to his girlfriend?
Answer: He gave her a ring.
2. Why is Santa good at karate?
Answer: Because he has a black belt.
3. What are a prince's favourite time?
Answer: Knight time.
4. Why can't England play chess?
Answer: Because they got no queen.
5. Why does Batman cover half of his face?
Answer: To let everyone know he is white.

My Tour to the Chittagong University Library

Our school took us on a field trip to the Chittagong University Library. Grade 4 and 5 went there. I am in Grade 5, so I went on the bus which Grade 5 was going. We had so much fun on the bus ride. We sang songs and told each other jokes and we laughed, and it was just so much fun. When we arrived there, we first visited the museum and then the art gallery. But let us put that aside and hop on to the Chittagong University Library. There were many students there. They were studying things which I still did not study. They were studying on a long but not so big table. They were sitting on a long narrow chair. We saw many bookshelves, with hundreds of books. There was also a nice staircase to the top. On the top we also saw many closed rooms but only one with an open door. We could only enter that one room which inside had shelves of books. It was a very squeezey room. So only a few of us could go and enter at a time. Then we moved to another very similar staircase which led back to where we started. That was the end of our tour to the Chittagong University Library.

Nufaysa Tahlil

Grade 5B CC

The Heredity and its Characteristics

In our school, we learned about a chapter, which is called 'Heredity'. I was really confused at first, and I was thinking, "What is heredity?" Then my teacher told me that the transfer of characteristics from parents to offspring is known as heredity. Then I started to understand. Some characteristics that the young can inherit from their parents are physical features that are observable. I thought that is why I look like my parents. We have some inherited characteristics those are passed from our parents during reproduction like our height, hair type, eye colour, skin colour, type of eyelid, etc. These are observable but our blood type is passed from our parents to us which is not observable. Similarly, animals and plants are also like that. There are some non-inherited characteristics like behaviours, likings and disliking, abilities, or skills etc. When we grow up, we usually learn many things from our surroundings. We have some characteristics those are unique to us, like fingerprints and patterns in our irises. Even identical twins have different fingerprints and iris patterns. We also learned about chromosomes. It is a thread-like structure that carries genetic information. Each chromosome is made up of thousands of genes. We carry a combination of genetic information from both parents. This is why we resemble our parents, but never identical to them. I learned many interesting facts from this chapter. It was so much fun. I hope I will learn more about this in the future.

কচিকাঁচার আগ্নি

আমার বিদ্যালয়ের বিজ্ঞান মেলা ২০২৩

নুসাইবা রহমান আদিবা - তৃতীয় - ক (সিসি)

আমি প্রথমবার বিজ্ঞান মেলায় যাই। বিজ্ঞান মেলাটা আমাদের বিদ্যালয়ে হয়েছিল। সেখানে আমার একটা দল ছিল। সব দলে পাঠজন করে সদস্য ছিল। আমাদের দলে আমরা একটা ফিল্টার বানিয়েছি। আমরা আমাদের শ্রেণিকক্ষ কেন্দ্র দিয়ে সাজিয়েছি। আমাদের মা ও বাবারা আমাদের প্রজেক্ট দেখতে এসেছিল। আমি বিচারকদেরকে আমাদের প্রজেক্টটি কীভাবে কাজ করে তা বর্ণনা করেছি। আমাদের প্রজেক্টটি কাজ করছে দেখে আমরা খুব খুশি হয়েছি। আমাদের শ্রেণিকক্ষের সবাই আলোচনা আলোচনা প্রজেক্ট বানিয়েছিল। বিজ্ঞান মেলাটি আমার খুব ভালো লেগেছে।

এবারের বিজ্ঞান মেলা

মোহাম্মদ ফিযান ইসলাম - চতুর্থ - ক (সিসি)

আমাদের এবারের বিজ্ঞান মেলা ছিল ৫ অক্টোবর বৃহস্পতিবার। এবারের বিজ্ঞান মেলাটি অনেক সুন্দর হয়েছিল। আমাদের দল থেকে তিনটি দল ছিল। আমি তৃতীয় দলে ছিলাম। আমরা পাঠজন ছিলাম আমাদের দলে। তাদের নাম হলো: ক্রমাঙ্কিত, প্রজ্ঞা, সুবহানা, এবং মিনাম। আমাদের প্রকল্পের নাম ছিল পারমাণবিক বিদ্যুৎকেন্দ্র। এবার তিনজন বিচারক ছিল। ওনারা প্রত্যেক দলের প্রকল্প দেখছিল এবং জানতে চেয়েছিল সব দল থেকে তাদের প্রকল্প নিয়ে। আমরা ভয় পাচ্ছিলাম কিন্তু আমরা সবাই বলতে পেরেছি সব বুঝিয়ে। এখন আমরা রেজাল্টের অপেক্ষায়।

বৃষ্টির দিন

মাহিফা নূর-ই-জান্নাত - দ্বিতীয় - ক (সিসি)

আমার সবচেয়ে প্রিয় সময় বর্ষাকাল। আষাঢ় ও শ্রাবণ মাস মিলে বর্ষাকাল। আকাশ তখন কালো ঘন মেঘে ছেয়ে যায়। এসময় সারা দিন রাত বৃষ্টি পড়ে। কখনো বড়ো বড়ো ফোঁটায় বৃষ্টি পড়ে। হালকা কিরবিধে বৃষ্টিকে ইলশেওড়ি বৃষ্টি বলে। বৃষ্টির সময় নদীতে ঢল নামে। এসময় নানা রকম মূল ফোঁটা যেমন- কেয়া, কদম, বেগি ইত্যাদি। বৃষ্টি আমার প্রিয় সময়। এসময় পরিবেশ ঠান্ডা থাকে। গাছপালা, প্রকৃতিও সবুজ হয়ে যায়। তাই বৃষ্টির দিন আমার পছন্দের সময়।

প্রিয় বন্ধু

দিয়া চক্রবর্তী - তৃতীয় - খ (সিসি)

আমার অনেক বন্ধু আছে। কিন্তু আমার প্রিয় বন্ধু হচ্ছে প্রাসমিতা। সে আমার অনেক কাছের বন্ধু। সে আমার দুঃখ-কষ্ট সবকিছুতে থাকে। আমরা কোনো জায়গায় গেলে একসাথে যাই। প্রাসমিতা মাঝেমাঝে শেখিল আনতে ডুলে যায়। আমি আমার শেখিল গুকে দিই। আমাদের যখন টিফিন ব্রেক নেয়, আমরা তখন টিফিন শেয়ার করে বাই। ও যেদিন আসে না, আমার সেন্নিন ভালো লাগে না। আমি খুব খুশি এমন একটা বন্ধু পেয়েছি। আমি গুকে অনেক ভালোবাসি। আমি গুকে ছেড়ে কোথাও যাব না। ও বলেছে, সেও আমাকে ছেড়ে যাবে না। আমরা সবসময় বন্ধু থাকবো। কেউ কাঁচকে ছাড়বে না।

বিজ্ঞান মেলা

রাহাবার আহমেদ - চতুর্থ - ক (সিসি)

বিজ্ঞান মেলা মানে হচ্ছে- নতুন নতুন আবিষ্কার যে মেলায় দেখা যায় তাকে বিজ্ঞান মেলা বলে। বর্তমানে ছোটো বড়ো সকলের নিজস্ব বুদ্ধি কাজে লাগিয়ে বিভিন্ন বিষয় আবিষ্কার করছে যেমন: আমি ব্যাটারির সাহায্যে লাইট কীভাবে চালানো যায় তা বিজ্ঞান মেলায় প্রদর্শন করতে পেরেছি। যে সকল জিনিস মানুষের কাজে ব্যবহার করা যায় তা বিজ্ঞান আমাদের দিয়েছে। যেমন: বিদ্যুৎ, স্যাটেলাইট, যানবাহন এবং আমাদের প্রতিনিয়ত কাজের সবকিছুই। আমাদের প্রতিনিয়তের কাজে বিজ্ঞান জড়িত তাই বিজ্ঞান মেলা ছাড়া জাতি অচল।

আমার শখ

ইশরাক ইশতিয়াক - দ্বিতীয় - খ (সিসি)

মানুষ যে কাজটি করতে ভালোবাসে সেটাই শখ। আমারও কিছু শখ আছে। যেমনঃ বই পড়া, বাগান করা, ভ্রমণ করা, ফুটবল খেলা ইত্যাদি। ফুটবল পৃথিবীর সবচেয়ে জনপ্রিয় খেলা। দুটি দলের মধ্যে ফুটবল খেলা হয়। প্রতিটি দলে ১১ জন খেলোয়াড় থাকে। শারীরিক অনুশীলনের জন্য এই খেলাটি দুর্দান্ত। প্রতি ৪ বছর অন্তর অন্তর কিফা বিশ্বকাপ ফুটবল অনুষ্ঠিত হয়। আমার প্রিয় ফুটবলার ক্রিস্টিয়ানো রোনালদো।

হাত ধুয়ে ধাও

মুফতল মুরতাজা আলি - চতুর্থ - খ (সিসি)

হাত না ধুয়ে খেলে আমাদের অসুখ - বিসুখ হতে পারে। যেমন- কাশি, জ্বর ইত্যাদি। হাত পরিষ্কার না রাখলে জীবাণু বাসা বাঁধে। আর এসব জীবাণু খাবারের সাথে পেটে গিয়ে রোগ সৃষ্টিতে সহায়তা করে। এসব কিছু হতে থাকলে মানুষের জ্বর আসে। এটো জ্বর আসে যে, মানুষ মারা যায়। হাত পরিষ্কার রাখলে আমরা সুস্থ থাকবো। হাত না ধুয়ে খেলে এলব হতে পারে।

কৌতুক

অনুশা মঞ্জুমলার - পঞ্চম - খ (সিসি)

একজন লোক ট্রাকের সাথে দুর্ঘটনা ঘটান পর তিনমাস ঘরে থাকে। তিনমাস পর, একদিন তার বন্ধু তাকে বলে - "চলো বাইরে যাই।" তখন লোকটি বলে - "না। আমি পারবো না।" বন্ধুটি তাকে জিজ্ঞাসা করলো - "কেন? ভয় লাগছে?" লোকটি বললো, "না, কারণ ট্রাকের পেছনে লেখা ছিল - 'ধন্যবাদ! ভবিষ্যতে আবার দেখা হবে।'"

A Guide to Maximising Student Life Enjoyment

Being a student is a unique and exciting phase of life, filled with opportunities for personal and academic growth. However, while the challenges can feel overwhelming, finding a balance between academics and personal well-being is crucial. This guide aims to offer practical tips on how to fully embrace and enjoy student life.

1. Effective time management is key to enjoying student life. Create a realistic schedule that includes study time, extracurricular activities, and personal downtime.
2. Engaging in extracurricular activities not only provides a break from academics but also allows students to meet new people and explore their interests.
3. Building a strong support system is essential for enjoying student life. Make an effort to meet new people, attend social events, and participate in group activities. Forming meaningful connections with fellow students creates a sense of belonging and can make the academic journey more enjoyable.
4. Prioritising physical and mental well-being by ensuring enough sleep, maintaining a balanced diet, and engaging in regular exercise is crucial. Taking care of one's health positively impacts energy levels, concentration, and overall happiness.
5. While academics are a priority, it's important to strike a balance between work and play. Allocate time for relaxation and leisure activities.

Student life is a transformative period that offers a wealth of experiences and opportunities. By managing time effectively, exploring various aspects of campus life, prioritising well-being, and maintaining a positive mindset, one can make the most of this exciting phase. Remember to enjoy the journey, celebrate achievements, and embrace the challenges that contribute to personal and academic growth.

Calling all parents who are interested in getting involved in any of the mentioned events! You could do so by writing to us about it, coming in for a guest lecture, reading stories to our students or just showing us your support as you always do! We would love to include testimonial from you in our next issue, so please do email us at hojs@cisbd.org
