Exploring New Tech Trends of 2025: Empowering Students for the Future

Dear CIDER Family,

As we step into 2025, the world of technology continues to expand, opening doors to opportunities we could only dream of a decade ago. As educators, parents, and students, we are responsible for staying updated with these trends, ensuring that we leverage technology to enrich learning and prepare our students for a rapidly changing world. Here are some of the most exciting tech trends that are reshaping education this year:

1. Generative AI in Education

Artificial Intelligence (AI) is about automation, creativity, and collaboration. Generative AI tools like ChatGPT, DALL-E, and others are revolutionising how students brainstorm ideas, create projects, and solve problems. Whether it's generating creative essays, designing art, or solving complex equations, generative AI offers endless possibilities for learning. As students embrace these tools, we also emphasise ethical use, encouraging them to use AI as a partner in their learning rather than a shortcut.

2. Personalized Learning with Adaptive Tech

Every student learns at their own pace, and adaptive technology is here to honour that. From AI-driven apps that customise lessons to platforms that provide real-time feedback, technology is helping us meet each student's unique needs. This means no child gets left behind, and everyone can thrive in their own way.

3. Gamification in Education

Gamification—using game design elements in learning—continues to be a strong trend in 2025. Students remain engaged and motivated by turning lessons into challenges, quizzes into adventures, and classrooms into interactive spaces. This approach doesn't just make learning fun; it also builds critical thinking, teamwork, and problem-solving skills.

4. Green Tech and Sustainability Education

The future demands not only tech-savvy individuals but also environmentally conscious ones. Green-tech innovations, from solar-powered devices to eco-friendly computing, inspire schools to teach sustainability alongside technology. Students are learning to innovate with a purpose—creating reasonable solutions for society and the planet.

Preparing for the Future

At CIDER, we are committed to staying at the forefront of these advancements, ensuring our students have the knowledge, skills, and ethical grounding they need to thrive in a tech-driven world. This year, we will host workshops, interactive sessions, and hands-on activities to explore these trends further.

Let us embrace these technologies together, fostering a spirit of innovation and lifelong learning in our students. After all, the future belongs to those prepared to lead it. Here's to an exciting year of growth and discovery!

Warm regards,
Neeti Tripathi

Dear Students

Welcome to the New Year 2025 filled with opportunities to learn and grow! As we begin another exciting year together, it is the perfect time to talk about something very important — setting goals and working hard to achieve them.

Setting a goal is like choosing a destination for a journey. Whether you want to improve in your favourite subject, become a better friend, or learn a new skill; goals give you a clear purpose. They help you to focus and remind you why your efforts matter.

But how do you set a good goal? Start by thinking about what you want to achieve and make sure your goal is clear and specific. For example, instead of saying, "I want to read more books," you could say, "I will read one book every month." When your goal is specific, it becomes easier to know how to achieve it.

Next, break your goal into small steps. Imagine you want to improve in Mathematics. Start by focusing on understanding one topic at a time or practising for just 15 minutes a day. These small efforts add up and bring you closer to success.

Remember, achieving a goal is not always easy. You might face challenges or feel like giving up, but that's okay! What matters most is not how fast you achieve your goal, but that you keep trying. Mistakes are just part of learning and growing stronger.

Don't be afraid to ask for help from your teachers, friends, or family when you need it. They can give you advice, support, and encouragement along the way. Celebrate your progress too, no matter how small it seems. Every step forward is an achievement!

Most importantly, believe in yourself. You are capable of achieving amazing things if you stay determined and never give up. This year, challenge yourself to set a goal, work towards it, and see how proud you feel when you reach it.

Let's make this year one where we dream big, set goals, and give our best effort to achieve them. Remember, you are never alone in your journey, and your teachers and friends are here to support you every step of the way. Always remember that setting goals is not just about school work—it is about growing as a person. You can set goals to be kinder to others, to help your classmates, or even to take care of your health by eating well and staying active. No goal is too small if it helps you become the best version of yourself.

Wishing you all the best for a successful year!

If I Could Understand Bird's Language

One day I was dreaming that I could understand bird's language. Then a little humming bird came to me and said, "Rise and shine!" I asked myself if my dream came true. I can understand bird language! The little humming bird said, "Yes!" I was like, "Wow". Then I woke up and went to the kitchen to have my breakfast, then a crow came and said, "I am hungry. Do you have any food?" I said, "Yes. I have some bread, you can eat." Then I got ready for school. When I was going to school, a little baby Robin came to me. It asked where I was going. I said, "I am going to my school. When I reached school, a pigeon came up to me and said "Hi! What's your name?" I said, "It's Mahifa. What's your name little pigeon?" It replied, "It is Kate." I said, "Nice name." Then all birds I met today, came to take me to the sky. I enjoyed the view from up there. Then the birds said, "You are our best friend". Then I suddenly woke up and saw it was all a dream!

অবাক ঘটনা

আনিসা আহুদ - পঞ্চম ব (সিসি)

বহু বছর আগের কথা। নীতু নামের এক মেয়ের বাসার পাশের রুমের দরজা সবসময় বন্ধ থাকত। না কাউকে কখনও যেতে দেখত, না নিজে যেত। কিন্তু সবসময় রাতে সে রুম থেকে কান্নার শব্দ শোনা যেত। নীতু একদিন তার মাকে সে রুমের দরজার ব্যাপারে জিজ্ঞাসা করলো। তার মা কিছু না বলেই চলে গেল। যা নীতুকে খুব অবাক করলো। দিন চলে গেল। মাস চলে গেল। নীতু একদিন জামলা সে দরজা খুলে দেখবে তেতরে কী আছে? যেমন কথা তেমন কাজ। সেদিন রাতে সবাই যখন ঘুমিয়ে গেল, নীতু ঢাবি দিয়ে দরজা খুলে দেখল তেতরে অনেক অন্ধকার। তাগিল নীতু উঠ নিজে তুকেছিল। রুমের নিচে অনেক কাঁচের টুকরো ও রক্ত দেখতে পেল। রুমের যেতে যেতে নীতুর পায়ে সাথে কিছু একটা ধাক্কা খেলো। নিচে তাকিয়ে দেখল এটা একটা লাশ। নীতু তরে দরজা বন্ধ করে আত্মহত্যা নিজের রুম চলে গেল। হত্যা করে তার রুমের সব দরজা জানাশা বন্ধ হয়ে গেল। পেছনে তাকিয়ে দেখল সে, নৃতলেছট্টা দাঁড়িয়ে আছে!

প্রিয় ঋতু

আহিন জায়া - চতুর্থ ব (সিসি)

বর্ষাকাল হলো আমার প্রিয় ঋতু। বর্ষাকালে যত্নবহুর দ্বিতীয় ঋতু। আবার ও শ্রাবণ মাস মিলে হয় বর্ষাকাল। বর্ষাকালে আকাশ কালো ঘন মেঘে ছেয়ে যায়। কখনও বড়ো বড়ো ফোঁটার, কখনও বীয়ে বীয়ে, আবার কখনও ফুলপারে বৃষ্টি পড়ে। গ্রীষ্মকালের কাঠকাটা তীব্র তাপমাত্রার পর বর্ষার ঠাণ্ডা আবহাওয়া মনে শান্তি কিরিয়ে আনে। শুকনো নল-নদী, খাল-বিল মটির পানি পেয়ে প্রাণ ফিরে পায়। গাছপালা সতেজ হয়ে ওঠে। প্রকৃতির নতুন রূপ আমার খুব ভালো লাগে। বর্ষাকাল আমার জন্য আনন্দের হলেও গরিব-দুঃখী ও পশু-পাখির জন্য অনেক অসুবিধা বটে।

How Can You Pass the Time Without Gazette?

Now a days it seems everyone is preoccupied with electronic gazettes in their life to pass out their idle time. But there are countless ways to pass the time without a gazette. You can dive into books; explore new genres, visiting your dear ones. Creative activities, like drawing, painting, and writing can spark your imagination. Exercise or taking a walk helps improve your mood and health; listening to music, podcasts or audio books are a great way to unwind. Try learning something new, whether it is a language, or cooking or a craft. Socialising with friends or family either in person or virtually can also help to pass time meaningfully, or simply meditate to clear your mind and gain some inner space.
